Saving vs. Borrowing

This hypothetical example assumes a 7% interest rate over 10 years. This example is an estimate only and market conditions may change.

Myths We've Heard About Saving for College

“My savings will hurt my financial aid.”

The Truth: Income is the biggest factor in determining financial aid eligibility, not savings. Your savings will help you when it comes time to pay for college.

“It's not worth saving for college if I can't save the entire cost.”

The Truth: Every little bit saved toward college will help. Even saving a small amount over time can add up and help cover costs such as books.

Your College Savings Will Help You

- Give you more education options
 - Different types of colleges
 - Special programs such as study abroad
- Reduce or eliminate the need to borrow loans
- Allow the student to work less and study more
- Have a minimum impact on aid eligibility
- Motivate your child

Let's Look at an Example: Case Study #1

**Kyle wants to attend a four-year public school to study business.
The full annual cost of the school is \$22,500.**

- Kyle's parent AGI is \$49,000
- No college savings

Kyle's Financial Aid Award	
Grants & Scholarships*	\$13,000
Federal Work-Study	\$2,000
Federal Loan	\$5,500
Total Aid	\$20,500

*Grants & scholarships are need-based and merit-based from federal, state, and institutional sources.

Kyle's family will need to pay \$2,000 out of pocket each year of college.

**Another Example:
Case Study #2**

**Lisa wants to attend a four-year private school to study nursing.
The full annual cost of the school is \$60,000.**

Lisa's Financial Aid Award	
Merit Scholarship	\$20,000
Nursing Award	\$2,000
Federal Loan	\$5,500
Total Aid	\$27,500

- Expected Family Contribution (EFC) is \$47,199
- Not eligible for need-based grants

Lisa's family will need to pay \$32,500 out of pocket each year of college.
